

Call for Papers

CEPMaW'10

Construction and Engineering Project Management Workshop.

University of Valladolid.
September 30th-October 1st , Valladolid. Spain.

Short paper Submission deadline: April 15th, 2010

Workshop Web: <http://www.insisoc.org/cepmaw2010/>

Aims and Scope

The Construction and Engineering Project Management Workshop (CEPMaW'10) will provide a unique opportunity for professionals and researchers to exchange their knowledge and advances for the new era, filling the gap between theory and practice in project management.

This event proposes a one-and-half day workshop to debate on current issues in Project Management, both in construction and engineering industries. The main idea is to promote a forum where novel research and professional practices can be deeply discussed to provide efficient solutions and new tools in this discipline. In this second edition, we are particularly interested in successful cases in PM, implementation of methodologies, project portfolio and program management, and the links between corporate strategy and project portfolio.

The range of technical issues that Project Management has dealt with, and continues to deal with, is quite diverse and extensive. Relevant topics to this workshop include, but are not limited to, the following:

- standards and methodologies for project management
- platforms and software tools for project management
- new trends in project management
- project portfolio and program management
- corporate strategy and project portfolio
- Project Management in Education: opportunities and challenges
- controlling and monitoring projects
- project finance
- successful cases in project management
- complexity in project management

Submission

Researchers are invited to submit a short paper up to 4 pages. A PDF file containing the paper should be e-mailed to cepmaw@insisoc.org by the 15th of April 2010. The paper must fit the provided template and final version of accepted papers should have at most 15 pages. Accepted papers will be printed in the workshop proceedings (ISBN publication) within the INSISOC Series. The template is available at: www.insisoc.org/cepmaw2010/template

Important Dates

Short Paper Submission deadline: April 15th, 2010

Notification of acceptance: June 1st, 2010

Deadline for authors' revised contributions, according to reviewers' remarks: July 1st, 2010

Workshop, Valladolid, Spain: September 30th - October 1st, 2010
